

Metals, Cation & Anion Standards

- Largest Producer Worldwide of Standards for ICP, ICP-MS, Atomic Absorption (AA), Ion Chromatography (IC), Flame Photometry & Ion Selective Electrodes (ISE)
- Inductively Coupled Plasma (ICP) Standards, covering up to 70 single element ICP Standards
- Infinite number of Multi Element ICP Mixes
- Atomic Absorption Standards (AA), over 50 single elements AA Standards. Matrix Modifiers and Releasing Agents available
- Large range of Anion & Cation Ion Chromatography (IC) including Organic Acid Anion Standards
- Flame Photometry Standards for Industrial and Clinical applications
- Complete range of Ion Selective Electrode (ISE) Standards and Ion Strength Adjusters (ISA)
- Suitable for any make or model or instrument
- Large customised offering available

*Supplied in high quality leached containers;
the range comprises of standards for:-*

- **Calibration**
- **Verification**
- **Tuning**
- **Spiking**
- **Interference**
- **Compliance**
