

Melting Point Standards

The product range (18 different products) starts at Benzophenone with a Melting Point 47 °C to 49 °C, to Potassium Nitrate with a Melting Point of 333 °C to 335 °C.

These products are prepared using the highest purity raw materials.

Products are tested and certified using a reference Melting Point apparatus that is calibrated using Certified Reference Materials to give traceability to the ITS-90 Temperature Scale.

Both the Meniscus formation and complete Liquefaction temperatures are certified

Commercial Benefits

- ✓ Extensive range
- ✓ Can be used with any melting point apparatus
- ✓ Presented in high quality glass bottles
- ✓ Customised Melting Point Standards also available
- ✓ Ready to Use

Technical Benefits

- ✓ Uncertainty of measurement up to ± 0.3 °C
- ✓ Consistency of product - Independent, Traceable, Certified
- ✓ Certificates of Analysis and Safety Data Sheets available online
