

24th May 2023

Notice of Change to Storage and Handling Instruction Sheets for the following products:

- **Turbiform™ Stabilised Formazin Turbidity Standards**
(Full Product List outlined on Page 2).

Dear Customer,

We wanted to take this opportunity to inform you that Reagecon, as part of a continuous improvement initiative, has taken the decision to move away from providing paper copies of the "Storage and Handling Instruction Sheets" for our Turbiform™ Stabilised Formazin Turbidity Standards.

The "Storage and Handling Instruction Sheets" will now be available via 2-D Barcodes on the Product Labels.

This change will reduce the amount of paper consumption by both Reagecon and our customers and it will make the production processes for Turbiform™ Stabilised Formazin Turbidity Standards more efficient.

If you have any questions regarding this change, please do not hesitate to contact me at darren.mcgrath@reagecon.ie.

We thank you for your continued business.

Regards

Darren McGrath
Quality Manager
