Notice of Change to Storage and Handling Instruction Sheets for Turbiform™ Stabilised Formazin Turbidity Standards

Dear Customer,

We wanted to take this opportunity to inform you that Reagecon, as part of a continuous improvement initiative, has taken the decision to move away from providing paper copies of the "Storage and Handling Instruction Sheets" for our Turbiform™ Stabilised Formazin Turbidity Standards.

The "Storage and Handling Instruction Sheets" will now be available via 2-D Barcodes on the Product Labels.

This change will reduce the amount of paper consumption by both Reagecon and our customers and it will make the production processes for Turbiform™ Stabilised Formazin Turbidity Standards more efficient.
